

Business Deep Dive Sprint Format

2026, May 11th to 13th

SPRINT FORMAT — WHAT TO EXPECT

1

What is a Sprint BDD?

- **An intense hackathon** compressed into 2+ days, with multiple subjects running in parallel across teams.
- **Work under pressure** on a topic far outside your comfort zone — just as real operational environments demand.
- **Groups are assigned by the admin team** — you do not choose your colleagues. Each group tackles one case among the 5 proposed by Marine Nationale.
- **For this 1st Sprint BDD: synchronised with Marseille campus:** students from both campuses compete on the same subjects.

2

What are you expected to deliver?

- At the end of the Sprint, each team must **defend their MVP or key findings** in front of Marine Nationale experts and a jury — on May 13th afternoon.
- The goal is not perfection — it is **speed, rigour, and the ability to communicate under constraints**.

1. KICK-OFF — CV LAPORTE OPENING
2. PRESENTATION OF THE 5 CASES
3. Q&A WITH MARINE NATIONALE EXPERTS

Auditorium — 4:15 PM

Albert School Mentors
